To account for multiple time zones, live sessions will start each day at 9:00am CT (7:00am PT) and sessions will end no later than 5:15pm CT (6:15pm ET).

There are 35 total sessions, including 22 synchronous/live sessions built into the schedule above. All live sessions will be pre-recorded and played live, which will allow speakers to join in the conversation and answer attendee questions in real-time. In addition, all live sessions include 10-15 minutes built-in within the times allocated above, for live question/answer with the speaker at the end of the video lecture. Each live session is separated by at least 15-minute breaks, allowing attendees time to answer emails, grab a quick snack, check in on their kids/pets, etc. There is a larger lunch break each day. The remaining 13 asynchronous sessions listed below will be pre-recorded and available on-demand only.

Review Course attendees will have access to all sessions on-demand through March 31, 2027.
