--	--	---	--

Since the event is virtual and to account for multiple time zones, live sessions will start each day at 9:00am CT (7:00am PT) and sessions will end no later than 5:00pm CT (6:00pm ET).

There are 33 total sessions, including 19 synchronous/live sessions built into the schedule above. All live sessions will be pre-recorded and played live, which will allow speakers to join in the conversation and answer attendee questions in real-time. In addition, all live sessions include 10-15 minutes built-in within the times allocated above, for live question/answer with the speaker at the end of the video lecture. Each live session is separated by at least 15-minute breaks, allowing attendees time to answer emails, grab a quick snack, check in on their kids/pets, etc. There is a larger 30-45-minute lunch break each day. The remaining 14 asynchronous sessions listed below will be pre-recorded and available on-demand only. CME: A total of up to 33.75 *AMA PRA Category 1 Credits™* will be available.

A Review Course community forum will be created allowing attendees to post questions to speakers. All attendees will be able to view questions and speaker responses on the forum to aid in their exam preparation.

Review Course attendees will have access to all sessions on-demand through March 31, 2025.

On-Demand Sessions:

1. **Research in Ethics and Quality Improvement** - Jennifer Kesselheim, MD, MEd (45 min)
2. **Biostatistics and Epidemiology** - Michael Anderson, PhD (60 min)
3. **Review of Peripheral Blood and Bone Marrow Morphology: Non-malignant Hematology** - Matthew Oberley, MD, PhD (45 min)
4. **Review of Peripheral Blood and Bone Marrow Morphology: Malignant Diseases** - Mark Fleming, MD, DPhil (45 min)
5. **Bone Marrow Failure** – Taizo Nakano, MD (60 min)
6. **Congenital and Acquired Hemolytic Anemias** - Rachael Grace, MD (60 min)
7. **Vascular Anomalies** - Denise Adams, MD (60 min)
8. **Lymphoma** - Paul Harker-Murray, MD (60 min)
9. **Disorders of Platelets** - Cindy Neunert, MD, MSCS (60 min)
